

## Blue Sky<sup>SM</sup> Block 2021 Prospective Product Content Label<sup>1</sup>

In 2021, Blue Sky Block is sold in blocks of 200 kilowatt-hours (kWh). Starting January 2022, Blue Sky Block will be sold in blocks of 100 kWh. Blue Sky Block is a Renewable Energy Certificate (REC) product and does not contain electricity, which is billed separately. A REC represents the environmental benefits of 1 megawatt hour (MWh) of renewable energy.

In 2021, Blue Sky Block will be made up of the following new renewable resources averaged annually.

Green-e <sup>®</sup> Energy Certified New <sup>2</sup> Renewables in Blue Sky Block 2021		Generation location
Solar	50%	OR, WA, CA, ID, UT, WY and/ or the broader Western region <sup>3</sup>
Wind	50%	
<b>Total Green-e<sup>®</sup> Energy Certified New Renewables</b>	<b>100%</b>	

1. These figures reflect the renewables that we plan to provide. Actual figures may vary according to resource availability. We will annually report to you before August 1 of next year in the form of a Historic Product Content Label the actual resource mix of the RECs you purchased.

2. New Renewables come from generation facilities that first began commercial operation within the past 15 years.

3. The Western region is defined as the states listed above, plus NV, AZ, MT, CO, NM, and the Canadian provinces of BC and AB.

In 2020, the "basic fuel mix", the average mix of energy sources supplying Pacific Power customers, is 51.44% coal, 19.47% natural gas, 11.32% wind, 5.13% hydro, 5.19% solar, 0.29% geothermal, 0.37% biomass, and 6.79% miscellaneous. This information is based on Federal Energy Regulatory Commission Form 1 data. The Pacific Power "basic fuel mix" is based on energy production and not resource capability, capacity or delivered energy.

Pacific Power's basic fuel mix includes owned resources and purchases from third parties. All or some of the renewable energy attributes associated with wind, biomass, geothermal and qualifying hydro facilities in Pacific Power's basic fuel mix may be: (a) used to comply with renewable portfolio standards or other regulatory requirements, (b) sold to third parties in the form of renewable energy credits and/or other environmental commodities or (c) not acquired. As of March 13, 2021, not counting compliance use, approximately 56 percent of the renewable energy attributes associated with 2020 generation and purchases was sold to third parties or not acquired. This includes all renewable energy attributes of associated with a customer's purchase of 157 megawatts of solar resources. This percentage may increase upon subsequent company sale of renewable energy certificates representing 2020 generation.

The average Pacific Power residential customer uses approximately 955 kWh per month.

Blue Sky Block products are Green-e<sup>®</sup> Energy certified, and meet the environmental and consumer-protection standards set forth by the nonprofit Center for Resource Solutions. Learn more at [www.green-e.org](http://www.green-e.org).

## Pacific Power's Prices, Terms & Conditions for Blue Sky Block

Blue Sky Block is certified by Green-e<sup>®</sup> Energy, which requires companies offering certified products to provide their customers with this notice of Price, Terms and Conditions of service.

<b>Company:</b>	Pacific Power
<b>Who should I contact for more information?</b>	Call <b>1-800-769-3717</b> , email <a href="mailto:bluesky@pacificcorp.com">bluesky@pacificcorp.com</a> , visit <a href="http://pacificpower.net/bluesky">pacificpower.net/bluesky</a> or write to Pacific Power, P.O. Box 400, Portland, OR 97207-0400.
<b>How will I be billed for my Blue Sky purchase?</b>	Your Blue Sky Block charge will be listed as a separate line item on your monthly Pacific Power electricity bill. This charge is in addition to your regular electricity bill.
<b>How will the Blue Sky charge on my bill be calculated?</b>	\$1.95 per 200-kwh block of Blue Sky through 2021. Starting January 2022, the block size will change to 100 kWh and the charge will be calculated as \$1.95 per 100-kWh block.
<b>Will the Blue Sky rate change over time?</b>	Blue Sky rates are based on current Commission approved tariffs. Pricing is subject to change. All rate changes require approval from the Commission. Customers will be notified of any price change in advance through customer communication.
<b>What is the required contract length?</b>	The contract is month-to-month.
<b>Can I cancel my participation?</b>	You may cancel your participation at anytime with no fee by calling 1-800-769-3717 or writing to Pacific Power, P.O. Box 400, Portland, Oregon 97207-0400. There is no minimum contract length.
<b>What other fees might I be charged?</b>	You must also pay all applicable federal, state or local taxes.
